CDF Checklist of Galapagos Beetles

Stewart B. Peck

Last updated: 01 Mar 2013

Abstract

This Checklist of Galapagos Beetles includes a total of all 539 taxa reported from the Galapagos Islands. For each name, detailed information is provided: its Galapagos distribution in islands groups or bioregions generated from the specimen records, comments about the taxonomy (especially synonyms), the origin (native and introduced), taxon status (accepted vs. rejected records) and relevant literature references.

Introduction

This publication lists all species of Galapagos Beetles currently known. Beetles are the group of insects with the largest number of known species. They can be found in almost all habitats; they often feed on plants and fungi, break down organic debris, or feed on other invertebrates. Some species are preyed upon by other animals like birds and mammals.

The Galapagos beetle fauna is now known to contain 56 families, 297 genera, and 486 species. The relationship of beetle diversity increases with island area, elevation, and ecological complexity, but this correlation has not been observed with island age.

The taxonomic composition of the total beetle fauna is probably now more than 95% sampled, and only a few species remain to be named. This provides excellent opportunities for the study of the life cycles and ecology of the Galapagos beetles, and for comparisons with the continental beetle fauna.

Methods

This checklist of all known Galapagos Beetles is automatically generated using the online database of the Charles Darwin Foundation Galapagos Species Checklist. All CDF Galapagos Species Checklists represent the synthesis of many different records: literature citations, data from previously unpublished reports (grey literature), specimen records of natural history collections located in Galapagos and all over the world. To the best of their knowledge authors of the individual checklists revised all available data. When new information becomes available, the taxonomy of a group changes or new species are discovered, the CDF online database and thus this publication becomes updated.

For many poorly known species groups the higher taxonomic classification still regularly changes according to how our knowledge about species being related changes. In many well known groups the phylogeny is somewhat stable, but to avoid confusion, in particular for groups where taxonomic changes are frequent, all checklists presented here are sorted alphabetical according to genus name and specific epithet. Please refer to the website for the currently accepted taxonomic hierarchy of each group.
Please be aware that the distribution presented here is automatically generated from specimen records and does not always accurately reflect the known distribution for all species.

For marine species, the distribution generally refers to the five main bioregions of the archipelago (Far Northern, Northern, Western, South Eastern, and the Elisabeth Bay Bioregion). For the terrestrial species more than 120 islands, islets, and small rocks have been aggregated into Island Groups, thus, for example, the island group "Santa Cruz" includes smaller islands like Santa Fé, Plaza Norte, Plaza Sur, Baltra, Daphne Mayor, Daphne Minor, and others.

IUCN red-list assessments presented here may deviate from the global IUCN list for the following reasons:

- for well known species groups like vascular plants or vertebrates updates proposed to the IUCN are shown instead of the outdated, but currently accepted status;

- for poorly known species groups (e.g., lichenized fungi) a general assessment is currently not possible and the list presented here is a regional red-list list for Galapagos archipelago.

Numbers of the species included in this list are auto-generated. Adding up the number of species in each category will not always equal the total number indicated. Some species have insufficient data to be categorized while others (e.g., category eradicated) will not be included in the total.

**Results**

**Names of taxa included in this checklist:** 539 (423 accepted, 78 unidentified taxon, 8 doubtful, 12 new to science), 18 rejected.

**Origin of the taxa included:** 97 accidental, 1 cultivated, 1 eradicated, 2 intercepted, 2 questionable accidental, 58 questionable native, 279 endemic, 62 indigenous, 12 questionable endemic.

1. *Ablechrus flavipes*  C. Waterhouse, 1877
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Syn.:** *A. darwinii* C. Waterhouse, 1877: 81 (lapsus)
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Isabela, Pinzón, Santa Cruz, Santiago.
   **References:** Linsley, E.G. et al. (1966), Mutchler, A.J. et al. (1925), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006), Smith, E.A. et al. (1877), Van Dyke, E.C. et al. (1953), Wittmer, W. et al. (1993).

2. *Acalymma limbata*  (C. Waterhouse, 1877)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Syn.:** *Diabrotica limbata* C. Waterhouse, 1877, fide Peck (2006)
   **Origin:** Native, Questionable Endemic.
   **Galapagos Distribution:** Isabela, Santa Cruz, Santiago.
   **References:** Linsley, E.G. et al. (1966), Mutchler, A.J. et al. (1925), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

3. *Acamptus sp.*
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Native, Questionable Endemic.
   **Galapagos Distribution:** San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

4. *Acanthoderes galapagoensis galapagoensis*  Linell, 1898
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
Galapagos Distribution: San Cristóbal, Santa Cruz.

5. *Acanthoderes galapagoensis vonhageni* Mutchler, 1938
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Endemic.
   Galapagos Distribution: Santa Cruz.

   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Endemic.
   Galapagos Distribution: Santa Cruz, Santiago.

7. *Acanthoscelides fuscomaculatus* (Blair, 1928)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Endemic.
   Galapagos Distribution: Fernandina, Isabela, San Cristóbal, Santa Cruz, Santiago.

   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Indigenous.
   Galapagos Distribution: Fernandina, Floreana, Isabela, Santa Cruz, Santa Fé, Santiago.

9. *Acanthoscelides obtectus* (Say, 1831)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Introduced, Accidental.
   Galapagos Distribution: Floreana, Isabela, Santa Cruz.

    Taxon status: Accepted name; taxon occurs in Galapagos.
    Origin: Native, Endemic.
    Galapagos Distribution: Floreana, Isabela, San Cristóbal, Santa Cruz, Santa Fé.

11. *Acaromimus sp. nov.*
    Taxon status: Unpublished name (Nomen nudum).
Origin: Native, Endemic.
Galapagos Distribution: Isabela, Santa Cruz.

12. *Achryson galapagoensis darwini*  Linsley & Chemsak, 1966
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Endemic.
   Galapagos Distribution: Santa Cruz.

   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Endemic.
   Galapagos Distribution: Floreana, Santa Cruz.

14. *Achryson galapagoensis galapagoensis*  Linell, 1898
   Syn.: Achryson galapagoensis Linell, 1899, fide Peck (2006)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Indigenous.
   Galapagos Distribution: Marchena, Santa Cruz.

15. *Achryson lineolatum*  Erichson, 1847
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Syn.: Achryson galapagoensis Linell, 1899, fide Peck (2006)
   Origin: Native, Indigenous.
   Galapagos Distribution: San Cristóbal, Santa Cruz.

   Taxon status: Accepted name; taxon occurs in Galapagos.
   Syn.: Atheta pseudoclaudiensis Pace, 1985, fide Peck (2006)
   Origin: Native, Endemic.
   Galapagos Distribution: Fernandina, Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz.

17. *Acrotrichis discoloroides*  Johnson, 1969
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Introduced, Accidental.
   Galapagos Distribution: Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz.
18. *Actidium difficilis*  Johnson, 1982

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

**References:** Johnson, C. et al. (1982), Peck, S.B. et al. (2006).

19. *Actidium leleupi*  Johnson, 1982

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

**References:** Johnson, C. et al. (1982), Peck, S.B. et al. (2006).

20. *Actinopteryx hoguei*  Johnson, 1982

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Isabela, Santa Cruz, Santiago.

**References:** Johnson, C. et al. (1982), Peck, S.B. et al. (2006).

21. *Aculomicrus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

Three neotropical species are known (Smetana 1975).

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Isabela, Santa Cruz.

22. *Acupalpus sp. 1*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Santa Cruz.

**References:** Desender, K. et al. (2001), Peck, S.B. et al. (2006).

23. *Acupalpus sp. 2*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (2006).

24. *Adelonia costipennis*  (Blair, 1933)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Rhacius costipennis* Blair, 1933, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Pinta, San Cristóbal, Santa Cruz, Santiago.

25. \textit{Adistemia watsoni} (Wollaston, 1871)
   \begin{itemize}
   \item \textbf{Taxon status:} Accepted name; taxon occurs in Galapagos.
   \item \textbf{Origin:} Introduced, Questionable Native.
   \item \textbf{Galapagos Distribution:} Isabela, Santa Cruz.
   \item \textbf{References:} Peck, S.B. et al. (1998), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).
   \end{itemize}

26. \textit{Aeolus galapagoensis} (Van Dyke, 1953)
   \begin{itemize}
   \item \textbf{Taxon status:} Accepted name; taxon occurs in Galapagos.
   \item \textbf{Syn.:} Aeolus fuscatus Steinheil 1875: 125, of Mutchler 1938: 4 (error); Van Dyke 1953: 54 (error), fide Peck (2006); Grammophorus galapagoensis Van Dyke, 1953, fide Peck (unpublished)
   \item \textbf{Origin:} Native, Endemic.
   \item \textbf{Galapagos Distribution:} Floreana, Pinzón, Santa Cruz, Santiago.
   \item \textbf{References:} Linsley, E.G. et al. (1966), Mutchler, A.J. et al. (1938), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).
   \end{itemize}

27. \textit{Ahasverus excisus} (Reitter, 1876)
   \begin{itemize}
   \item \textbf{Taxon status:} Accepted name; taxon occurs in Galapagos.
   \item \textbf{Origin:} Introduced, Accidental.
   \item \textbf{Galapagos Distribution:} Santa Cruz.
   \item \textbf{References:} Peck, S.B. et al. (2006).
   \end{itemize}

28. \textit{Allecula galapagoensis} Van Dyke, 1953
   \begin{itemize}
   \item \textbf{Taxon status:} Accepted name; taxon occurs in Galapagos.
   \item \textbf{Origin:} Native, Endemic.
   \item \textbf{Galapagos Distribution:} Isabela, Santa Cruz, Santiago.
   \end{itemize}

29. \textit{Allecula insularis} Van Dyke, 1953
   \begin{itemize}
   \item \textbf{Taxon status:} Accepted name; taxon occurs in Galapagos.
   \item \textbf{Origin:} Native, Endemic.
   \item \textbf{Galapagos Distribution:} Floreana, Isabela, Santa Cruz.
   \end{itemize}

30. \textit{Allopentarthus elumbe} (Boheman, 1838)
   \begin{itemize}
   \item \textbf{Taxon status:} Accepted name; taxon occurs in Galapagos.
   \item \textbf{Origin:} Introduced, Accidental.
   \item \textbf{Galapagos Distribution:} Santa Cruz.
   \item \textbf{References:} Peck, S.B. et al. (2006).
   \end{itemize}

31. \textit{Alphitobius laevigatus} (Fabricius, 1781)
   \begin{itemize}
   \item \textbf{Taxon status:} Accepted name; taxon occurs in Galapagos.
   \item \textbf{Origin:} Introduced, Accidental.
   \item \textbf{Galapagos Distribution:} Floreana, Santa Cruz.
32. *Amblycerus galapagoensis* (Blair, 1928)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.

33. *Amblycerus piurae* (Pierce, 1915)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Floreana, Isabela, Pinzón, San Cristóbal, Santa Cruz.

34. *Ammophorus abingdoni* Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Marchena, Pinta.

35. *Ammophorus antennatus* Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santa Fé.

36. *Ammophorus bifoveatus* G.R. Waterhouse, 1845

**Taxon status:** Accepted name; taxon occurs in Galapagos.

*Syn.: A. obscurus* Linell, 1898, *A. bifoveatus barringtoni* Van Dyke, 1953; Peck (2006): Kaszab (1970: 186) states that this species is also known from collections by N. and J. Leleup in alpine grasslands in mainland Ecuador. Until this can be confirmed, I think it most likely that this is a case of mislabeling of specimens.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Marchena, Santa Cruz, Santa Fé, Santiago.

37. **Ammophorus cavernicola** Kaszab, 1970
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Floreana, Santa Cruz.

38. **Ammophorus cooksoni** C. Waterhouse, 1877
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

39. **Ammophorus denticollis** Boheman, 1858
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Questionable Endemic.
   - **Galapagos Distribution:** Santa Cruz.

40. **Ammophorus galapagoensis galapagoensis** G.R. Waterhouse, 1845
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** San Cristóbal, Santa Cruz.

41. **Ammophorus insularis** Boheman, 1858
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

42. **Ammophorus laevis** Van Dyke, 1953
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** San Cristóbal.
43. **Ammophorus obscurus**  G.R. Waterhouse, 1845

*Taxon status:* Accepted name; taxon occurs in Galapagos.

*Origin:* Native, Endemic.

*Galapagos Distribution:* Fernandina, Floreana, Isabela, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

44. **Ammophorus simplex**  Van Dyke, 1953

*Taxon status:* Accepted name; taxon occurs in Galapagos.

*Origin:* Native, Endemic.

*Galapagos Distribution:* Floreana, Isabela, San Cristóbal, Santa Cruz.

45. **Ammophorus sp. nov. 1**

*Taxon status:* Unpublished name (Nomen nudum).

*Origin:* Native, Endemic.

*Galapagos Distribution:* Española, Floreana, Isabela, San Cristóbal, Santa Cruz.

46. **Amphicerus galapaganus**  (Lesne, 1910)

*Taxon status:* Accepted name; taxon occurs in Galapagos.

*Syn.:* Bostrichus uncinatus C. Waterhouse, 1877, Amphicerus punctipennis Linell (not LeConte), 1898, Schistoceros obscurus, Amphicerus cornutus (Pallas, 1772), fide Peck (2006). As earlier authors treated it, this species may yet prove to be a synonym or an island subspecies of Amphicerus cornutus (Pallas) which is widespread in lowland subtropical and tropical America, including the Pacific Tres Marias islands of Mexico.

*Origin:* Native, Endemic.

*Galapagos Distribution:* Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago, Wolf.

47. **Anchastus sp. nov. 1**

*Taxon status:* Unpublished name (Nomen nudum).

*Origin:* Native, Endemic.

*Galapagos Distribution:* Pinta, Santa Cruz.

48. **Anchastus vandykei**  Johnson, ?

*Taxon status:* Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.
**Galapagos Distribution:** Fernandina, Isabela, Santa Cruz.

49. **Ancholaemus acuminatus** Fairmaire, 1904
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Causton, C. et al. (2008), Peck, S.B. et al. (2006).

50. **Anchonus galapagoensis** G.R. Waterhouse, 1845
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Fernandina, Floreana, Isabela, Pinzón, Santa Cruz, Santiago.

51. **Anobocoelus sp.**
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Native, Indigenous.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

52. **Anotylus sp.**
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

53. **Anthicus pallidus** Say, 1826
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Indigenous.
   **Galapagos Distribution:** Isabela, Santa Cruz.
   **References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

54. **Araecerus fasciculatus** (DeGeer, 1775)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

55. **Araptus franzii** Bright & Peck, 1998
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
56. *Ariotus* sp.

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (2006).

57. *Astenus cruzensis*  Coiffait, 1985

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

58. *Astenus galapagoensis*  Coiffait, 1981

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

59. *Ataenius aequatorialis*  Petrovitz, 1961

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *A. aequinoctialis*, fide Peck (2006); related to *Ataenius vincentiae* Arrow of the West Indies.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Pinta, Santa Cruz, Santiago.

60. *Ataenius arrowi*  Hinton, 1936

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Darwin, Isabela, Pinta, Santa Cruz, Santiago.

61. *Ataenius atramentarius*  (Erichson, 1847)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Floreana, Genovesa, Isabela, Pinta, San Cristóbal, Santa Cruz.

62. **Ataenius attenuator** Harold, 1874
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Syn.:** Ataenius abditoides Chapin, 1940
   
   **Origin:** No Data.
   
   **Galapagos Distribution:** Santa Cruz.

63. **Ataenius cavagnaroi** Cartwright, 1970
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Fernandina, Floreana, Isabela, San Cristóbal, Santa Cruz.
   

64. **Ataenius cristobalensis** Cook & Peck, 2000
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** San Cristóbal.
   
   **References:** Cook, J. et al. (2000), Peck, S.B. et al. (2006).

65. **Ataenius floreanae** Cook & Peck, 2000
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Floreana.
   
   **References:** Cook, J. et al. (2000), Peck, S.B. et al. (2006).

66. **Ataenius gracilis** (Melsheimer, 1844)
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Introduced, Accidental.
   
   **Galapagos Distribution:** Isabela, Santa Cruz.
   

67. **Ataenius liogaster** Bates, 1887
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   
   **Origin:** Introduced, Accidental.
   
   **Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz.
   

68. **Ataenius sp.**
   
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   
   **Origin:** No Data.
   
   **Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz, Santiago.
69. *Atanygnathus sp.*
   - **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   - **Origin:** Introduced, Questionable Native.
   - **Galapagos Distribution:** San Cristóbal, Santa Cruz, Santiago.
   - **References:** Peck, S.B. et al. (2006).

70. *Atheta galapagoensis* Pace, 1985
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Española, Fernandina, Floreana, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

71. *Aulonium angustatum* Pascoe, 1863
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Indigenous.
   - **Galapagos Distribution:** Santa Cruz.
   - **References:** Peck, S.B. et al. (2006).

72. *Aulonium bidentatum* Fabricius, 1801
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Indigenous.
   - **Galapagos Distribution:** Isabela, Pinta, Santa Cruz, Santiago.

73. *Bacanius sp.*
   - **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Floreana, Pinta, Santa Cruz.
   - **References:** Peck, S.B. et al. (2006).

74. *Bactridium insularis* Van Dyke, 1953
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

75. *Baeocera galapagoensis* Löbl, 1977
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago, Wolf.
76. *Bambara brunnea* (Britten, 1926)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Indigenous.
   **Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz, Santiago.

77. *Bambara contorta* (Dybas, 1966)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Indigenous.
   **Galapagos Distribution:** Santa Cruz, Santiago.

78. *Bambara frosti* (Dybas, 1966)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Indigenous.
   **Galapagos Distribution:** Isabela, Pinta, Santa Cruz, Santiago.

79. *Bambara stevesi* (Dybas, 1966)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Santa Cruz.

80. *Belonuchus rufipennis* (Fabricius, 1801)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Indigenous.
   **Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

81. *Bembidion equatoriale* Van Dyke, 1953
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Española, Floreana, Isabela, San Cristóbal, Santa Cruz, Santiago.

82. *Bembidion galapagoensis* (G.R. Waterhouse, 1845)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Syn.:** Notaphus galapagoensis G.R. Waterhouse, 1845, fide Desender et al. (1989)
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Fernandina, Isabela, Pinta, Santa Cruz, Santiago.
83. **Bitoma exarata**  
*Pascoe, 1866*

**Taxon status:** Accepted name; taxon occurs in Galapagos.
**Origin:** Native, Indigenous.
**Galapagos Distribution:** Isabela, Santa Cruz.
**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

84. **Blapstinus apicalis**  
*Van Dyke, 1953*

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.
**Galapagos Distribution:** Genovesa, Santa Fé.
**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

85. **Blapstinus barrigtoni**  
*Van Dyke, 1953*

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.
**Galapagos Distribution:** Floreana, Santa Fé.

86. **Blapstinus batesoni**  
*Blair, 1933*

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Pedonoeces batesoni Blair, 1933, fide Peck (2006)

**Origin:** Native, Endemic.
**Galapagos Distribution:** Santa Cruz.
**References:** Blair, K.G. et al. (1933), Linsley, E.G. et al. (1966), Mutchler, A.J. et al. (1938), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

87. **Blapstinus bauri**  
*Linell, 1898*

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Pedonoeces bauri Linell, 1898, fide Peck (2006)

**Origin:** Native, Endemic.
**Galapagos Distribution:** Floreana, San Cristóbal, Santa Cruz.

88. **Blapstinus blairi**  
*Van Dyke, 1953*

**Taxon status:** Accepted name; taxon occurs in Galapagos.

89. **Blapstinus caudatus** (Van Dyke, 1953)
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Floreana.
   

90. **Blapstinus costatus** (G.R. Waterhouse, 1845)
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Española, Genovesa, Santa Cruz.
   
   **References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

91. **Blapstinus culpepperi** (Van Dyke, 1953)
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Darwin.
   
   **References:** Linsley, E.G. et al. (1977), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

92. **Blapstinus darwini** Aalbu & Triplehorn, 1991
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Santa Cruz, Santiago.
   

93. **Blapstinus desenderi** Schatz, 1994
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Isabela, Santa Cruz, Santa Fé.
   
   **References:** Peck, S.B. et al. (2006), Schatz, I. et al. (1994).

94. **Blapstinus duncani** (Van Dyke, 1953)
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Floreana.
Origin: Native, Endemic.

**Galapagos Distribution:** Pinzón, Santa Cruz.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

95. *Blapstinus galapagoensis* (G.R. Waterhouse, 1845)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Acc. name: Pedonoeces galapagoensis G.R. Waterhouse, 1845, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santiago.

96. *Blapstinus lugubris* (Boheman, 1858)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Pedonoeces lugubris Boheman, 1858, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Isabela, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

97. *Blapstinus morio* (Boheman, 1858)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Pedonoeces morio Boheman, 1858, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

98. *Blapstinus pubescens* (G.R. Waterhouse, 1845)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Pedonoeces pubescens G.R.Waterhouse, 1845, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

99. *Blapstinus spatulus* (Van Dyke, 1953)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.
**Galapagos Distribution:** Española, Santa Cruz.

100. *Blapstinus uniformis* (Van Dyke, 1953)
- **Taxon status:** Accepted name; taxon occurs in Galapagos.
- **Origin:** Native, Endemic.
- **Galapagos Distribution:** San Cristóbal.

101. *Blapstinus wenmani* (Van Dyke, 1953)
- **Taxon status:** Accepted name; taxon occurs in Galapagos.
- **Origin:** Native, Endemic.
- **Galapagos Distribution:** Wolf.

102. *Blapstinus williamsi* (Van Dyke, 1953)
- **Taxon status:** Accepted name; taxon occurs in Galapagos.
- **Origin:** Native, Endemic.
- **Galapagos Distribution:** Floreana, Isabela, Santa Cruz.

103. *Bledius aequatorialis* Mutchler, 1925
- **Taxon status:** Accepted name; taxon occurs in Galapagos.
- **Origin:** Native, Indigenous.
- **Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz, Santiago.

104. *Bledius punctatissimus* LeConte, 1877
- **Taxon status:** Accepted name; taxon occurs in Galapagos.
- **Origin:** Native, Indigenous.
- **Galapagos Distribution:** Genovesa, Santa Cruz, Santiago.

105. *Brachypeplus sp.*
- **Taxon status:** Taxon not identified to species, subspecies, form or variety.
- **Origin:** Introduced, Accidental.
- **Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.
106. *Bradycellus cristobalinus* Franz, 1985

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** San Cristóbal, Santa Cruz.

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Bradycellus galapagorum galapagorum*, *B. galapagorum santiagoensis*, *B. isabelanus*. Re-examination of the type material of Franz (1985) (Desender, in prep.) does not support the validity of the above names, which are therefore here proposed as new synonyms for the variable species *B. insularis*.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, Pinta, Pinzón, Santa Cruz, Santiago.

108. *Bradycellus isabelae* Franz, 1985

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz, Santiago.

109. *Bradycellus sp. 1*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

**References:** Desender, K. et al. (2001).

110. *Brentus volvulus* Fabricius, 1792

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (2006).

111. *Bryoporus tarsalis* Coiffait, 1981

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

113. *Bythinoplectus peregrinus peregrinus* Schuster & Grigarick, 1966

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Bythinoplectus peregrinus similis*, *B. p. santiagoensis*, *B. p. isabelae*, *B. p. pintae*, *B. p. cristobalensis*. This last name was retained as a valid subspecies by Coulon (1992), and all other names were synonomized under the nominal subspecies.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Fernandina, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santiago.

114. *Caccodes oceaniae* (Bourgeois, 1884)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz.

**References:** Peck, S.B. et al. (2006), Wittmer, W. et al. (1993).

115. *Cafius cf. bistriatus* (Erichson, 1840)

**Taxon status:** The identification of this taxon or its occurrence in Galapagos is doubtful.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Fernandina, Isabela, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

116. *Calleida migratoria* Casale, 2002

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, Pinta, Santa Cruz, Santiago.

117. *Callosobruchus cf. maculatus* (Fabricius, 1775)

**Taxon status:** The identification of this taxon or its occurrence in Galapagos is doubtful.

**Origin:** No Data.

**Galapagos Distribution:** Santa Cruz.

118. *Calosoma galapageium* Hope, 1838

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Castrida galapageium* Hope, 1838, fide Desender & De Dijn (1989)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

119. *Calosoma granatense* Géhin, 1885

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago, Wolf.

120. *Calosoma leleuporum* (Basilewsky, 1968)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Castrida leleuporum Basilewsky, 1868, fide Desender & De Dijn (1989)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

121. *Calosoma linelli* Mutchler, 1925

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Calosoma galapageium Linell, 1898 (not Hope), Castrida linelli Mutchler, 1925, fide Desender & De Dijn (1989)

**Origin:** Native, Endemic.

**Galapagos Distribution:** San Cristóbal.

122. *Calymmaderus alutaceus* (Blair, 1928)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Eupactus alutaceus Blair, 1928, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

123. *Calymmaderus galapagoensis* (Blair, 1928)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Isabela, Santa Cruz, Santiago.

124. *Calymmaderus georgicus* (Blair, 1928)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Syn.:** Eupactus georgicus Blair, 1928, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Isabela, Pinta, Santa Cruz, Santiago.

125. *Carcinops galapagoensis* Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Genovesa, Pinta, San Cristóbal, Santa Cruz, Santiago.

126. *Carcinops sp. 1*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (2006).

127. *Carcinops tenellus* (Erickson, 1834)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Isabela, Santa Cruz, Santiago.

128. *Carpelimus aequalis* (Jacquelin du Val, 1857)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Syn.:** Troglophloeus aequalis Le Comte, fide Peck (2006)

**Origin:** Native, Indigenous.

**Galapagos Distribution:** San Cristóbal, Santa Cruz.

129. *Carpelimus leleupi* (Coiffait, 1981)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.
130. *Carpelimus marchenicus* (Coiffait, 1981)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Marchena, Santa Cruz.

131. *Carpelimus obscuricornis* (Coiffait, 1981)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Troglophloeus obscuricornis* Coiffait, 1981. Described from single specimen, sex not known.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

**References:** Coiffait, H. et al. (1981), Peck, S.B. et al. (2006).

132. *Carpelimus santiagus* (Coiffait, 1981)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

133. *Carpelimus tripunctulus* (Coiffait, 1981)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

**References:** Coiffait, H. et al. (1981), Peck, S.B. et al. (2006).

134. *Carphina arcifera* Bates, 1872

**Taxon status:** Accepted name; taxon occurs in Galapagos.

specimen in MZSP, identification by U.R. Martins, Museum of Zoology, University of São Paulo, Brasil

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006).

135. *Carpophilus dimidiatus* (Fabricius, 1792)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

136. *Cartodere constricta* (Gyllenhall, 1827)
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Introduced, Accidental.
   - **Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

137. *Cathartosilvanus opaculus* (LeConte, 1854)
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Introduced, Questionable Native.
   - **Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz.
   - **References:** Peck, S.B. et al. (2006).

138. *Cathartosilvanus tropicalis* (Van Dyke, 1953)
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Syn.:** Silvanus tropicalis Van Dyke, 1953, fide Peck (2006)
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Isabela, Santa Cruz.

139. *Cathartus quadricollis* (Guérin-Méneville, 1829)
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Introduced, Accidental.
   - **Galapagos Distribution:** Floreana, San Cristóbal, Santa Cruz.
   - **References:** Peck, S.B. et al. (2006).

140. *Catolethrus sp.*
   - **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   - **Origin:** Introduced, Accidental.
   - **Galapagos Distribution:** San Cristóbal, Santa Cruz.
   - **References:** Peck, S.B. et al. (2006).

141. *Caulophilus oryzae* (Gyllenhal, 1838)
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Introduced, Accidental.
   - **Galapagos Distribution:** Santa Cruz.

142. *Caulophilus sp. 1*
   - **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   - **Origin:** Native, Indigenous.
   - **Galapagos Distribution:** Floreana, Santa Cruz.
   - **References:** Peck, S.B. et al. (2006).
143. *Ceracis cucullatus*  (Mellié, 1848)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

**References:** Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).

144. *Ceracis sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** San Cristóbal, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

145. *Chaetocnema confinis*  Crotch, 1873

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Fernandina, Isabela, San Cristóbal, Santa Cruz, Santiago.

146. *Chelonarium sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Questionable Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

147. *Chrysobothris williamsi*  Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Pinzón, San Cristóbal, Santa Cruz.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

148. *Cicindela galapagoensis*  Horn, 1915

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Cicindelidia galapagoensis (Horn, 1920), Cicindela vonhageni, C. galapagoensis discolourata. Reichardt (1976) placed C. vonhageni as a synonym of C. galapagoensis on the basis of intermediate forms in collections from Floreana and Tortuga Bay. Several recent authors still treat C. vonhageni as a valid species. Cassola and Roque-Albelo (2003) summarize the evidence that C. galapagoensis and C. vonhageni are separate and probably sister species. We find the evidence to be unconvincing based on our own collections. There is certainly variation in body size and colouration within and between populations of the colour forms. Allozyme studies did not separate dark and pale forms of what we consider all to be C. galapagoensis. However, molecular studies (Desender and co-workers) in progress may help further resolve this question. Cassola et al. (2000) present evidence that this species is possibly threatened by the recently arrives species C. trifasciata, which seems to be displacing it.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Floreana, Genovesa, Isabela, Marchena, San Cristóbal, Santa Cruz.

149. *Cicindela trifasciata* Fabricius, 1781
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Introduced, Accidental.
   Galapagos Distribution: Santa Cruz.

150. *Cis creberrimus* Mellié, 1848
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Introduced, Questionable Native.
   Galapagos Distribution: Fernandina, Floreana, Isabela, Marchena, San Cristóbal, Santa Cruz, Santiago.

151. *Cissites maculata* (Swederus, 1787)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Indigenous.
   Galapagos Distribution: Fernandina, Isabela, San Cristóbal, Santa Cruz, Santiago.

152. *Clavilispinus exiguus* Erichson, 1840
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Introduced, Accidental.
   Galapagos Distribution: Española, Floreana, Isabela, Pinzón, San Cristóbal, Santa Cruz, Santiago.

153. *Coccidophilus sp.*
   Taxon status: Taxon not identified to species, subspecies, form or variety.
   Origin: Introduced, Questionable Native.
   Galapagos Distribution: Española, Fernandina, Floreana, Isabela, San Cristóbal, Santa Cruz.

154. *Coccotrypes carpophagus* (Hornung, 1842)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Introduced, Accidental.
   Galapagos Distribution: San Cristóbal, Santa Cruz.
155. *Coccotrypes dactyliperda*  (Fabricius, 1801)

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Santa Cruz.

156. *Coccotrypes rhizophorae*  (Hopkins, 1915)

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Isabela, Santa Cruz.

157. *Coelosternus leporinus*  (Champion, 1906)

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

158. *Colopterus sp. 2*

   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

159. *Colopterus truncatus*  Randall, 1838

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

160. *COLOCERMA maderae*  Wollaston, 1854

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Questionable Native.
   **Galapagos Distribution:** San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

161. *Conoderus galapagoensis*  Van Dyke, 1953

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Fernandina, Floreana, Isabela, San Cristóbal, Santa Cruz.
162. *Conotelus sp.*
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

163. *Copelatus galapagoensis* G.R. Waterhouse, 1845
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, San Cristóbal, Santa Cruz, Santiago.

164. *Coproporus galapagosus* Coiffait, 1981
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Fernandina, Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

165. *Corticotomus cf. quadrimaculatus* Léveillé, 1905
   **Taxon status:** The identification of this taxon or its occurrence in Galapagos is doubtful.
   **Origin:** Introduced, Questionable Native.
   **Galapagos Distribution:** Floreana, Isabela, Marchena, Santa Cruz, Santiago.
   **References:** Peck, S.B. et al. (2006).

166. *Cosmopolites sordidus* (Germar, 1824)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

167. *Creophilus maxillosus* (Linnaeus, 1858)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Indigenous.
   **Galapagos Distribution:** Fernandina, Isabela, Marchena, Santa Cruz, Santiago.
   **References:** Peck, S.B. et al. (2006).

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, San Cristóbal.
169.  *Cryptolestes sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Floreana, Santa Cruz.

170.  *Cryptolestes uncicornis*  (Reitter, 1876)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Isabela, Marchena, San Cristóbal, Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

171.  *Cryptophilus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, San Cristóbal, Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).

172.  *Cryptorama caheni*  Español, 1976

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Santa Cruz, Santa Fé, Santiago.

**References:** Español F. et al. (1976), Peck, S.B. et al. (2006).

173.  *Cryptorama joannae*  Español, 1976

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Darwin, Española, Genovesa, Pinta, San Cristóbal, Santa Cruz, Wolf.

**References:** Español F. et al. (1976), Peck, S.B. et al. (2006).

174.  *Cybocephaluls serrativentris*  (C. Waterhouse, 1877)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

* Syn.: Acribus serrativentris C. Waterhouse, 1877, fide Peck (2006). This species was originally placed in Clambidae and excluded from any later Galápagos list. Endrody-Younga (1959: 82) indicated that the species is a cybocephaline nitidulid, and we agree after examining specimens. Acribus is now considered to be a synonym of Cybocephalus and would thus not be endemic.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Fernandina, Floreana, Isabela, Pinta, Pinzón, Santa Cruz.

**References:** Mutchler, A.J. et al. (1925), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).

175.  *Cycloneda galapagoensis*  (Van Dyke, 1953)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

* Syn.: Adalia galapagoensis Van Dyke, 1953, fide Peck (2006). This species is stated as the sister to
Cycloneda sanguinea (Vandenburg 1992: 380). An Isabela record in the original type series is based on a misidentified Olla (N. Vandenberg, in litt.).

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santiago, Wolf.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

176. *Cycloneda sanguinea* (Linnaeus, 1763)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Española, Fernandina, Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

177. *Cycrillum strigicolle* (Sharp, 1882)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

178. *Cylidrella sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** No Data.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (1990).

179. *Dactylosternum abdominale* Fabricius, 1793

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** San Cristóbal, Santa Cruz.

180. *Dactylosternum sp. 2*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Isabela, Santa Cruz.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

181. *Dalotia coriaria* (Kraatz, 1856)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Atheta coriaria* (Kraatz, 1856), fide Peck (2006)

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

182. *Dermestes ater*  Degeer, 1774

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Darwin, Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz.

183. *Dermestes carnivoros*  Fabricius, 1775

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Darwin, Española, Isabela, San Cristóbal, Santa Cruz.

184. *Dermestes maculatus*  Degeer, 1774

**Syn.:** Dermestes vulpinus Fabricius, 1781, fide Peck (2006)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Darwin, Fernandina, Floreana, Genovesa, Isabela, Pinzón, Santa Cruz, Santiago, Wolf.

185. *Derolathrus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Questionable Endemic.

**Galapagos Distribution:** Floreana, San Cristóbal, Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

186. *Desmiphora maculosa*  Lisney & Chemsak, 1966

**Syn.:** *D. hirticollis*, Blair (not Olivier), 1933, fide Peck (2006)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Fernandina, Isabela, Santa Cruz, Santa Fé, Santiago.

187. *Dienerella filum*  (Aubé, 1850)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Isabela, Santa Cruz.

188. *Diestota franziana*  
*Taxon status:* Accepted name; taxon occurs in Galapagos.  
Syn.: D. franzi, replacement name (Pace, 1985: 451)  
*Origin:* Native, Endemic.  
*Galapagos Distribution:* Floreana, Isabela, Marchena, Pinzón, San Cristóbal, Santa Cruz, Santiago.  

189. *Diestota galapagoensis*  
*Taxon status:* Accepted name; taxon occurs in Galapagos.  
Syn.: Parasilusa galapagoensis Pace, 1985, fide Peck (2006)  
*Origin:* Native, Endemic.  
*Galapagos Distribution:* Marchena, Santa Cruz.  

190. *Diestota leleupi*  
*Taxon status:* Accepted name; taxon occurs in Galapagos.  
Syn.: Parasilusa leleupi, fide Peck (2006)  
*Origin:* Native, Endemic.  
*Galapagos Distribution:* Isabela, Santa Cruz.  

191. *Dinoderus minutus*  
*Taxon status:* Accepted name; taxon occurs in Galapagos.  
*Origin:* Introduced, Accidental.  
*Galapagos Distribution:* San Cristóbal, Santa Cruz.  

192. *Diochus cristobalensis*  
*Taxon status:* Accepted name; taxon occurs in Galapagos.  
Described from only one male.  
*Origin:* Native, Endemic.  
*Galapagos Distribution:* San Cristóbal, Santa Cruz.  

193. *Diochus franzii*  
*Taxon status:* Accepted name; taxon occurs in Galapagos.  
Described from three males and five females.  
*Origin:* Native, Endemic.  
*Galapagos Distribution:* Santa Cruz, Santiago.  

194. *Diochus isabelae*  
*Taxon status:* Accepted name; taxon occurs in Galapagos.  
Described from one male and one female.  
*Origin:* Native, Endemic.
Galapagos Distribution: Isabela, Santa Cruz.

195. *Diochus montguilloni*  Coiffait, 1987
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Replacement name for preoccupied *D. testaceus* (Coiffait) 1981; described from only one male.
   Origin: Native, Endemic.
   Galapagos Distribution: Santa Cruz, Santiago.

   Taxon status: Accepted name; taxon occurs in Galapagos.
   Described from 2 males and 1 female.
   Origin: Native, Endemic.
   Galapagos Distribution: Santa Cruz, Santiago.

197. *Diomus anthony*  Gordon, 1999
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Indigenous.
   Galapagos Distribution: Floreana, Isabela, San Cristóbal, Santa Cruz.

198. *Dipropus puberulus*  (Boheman, 1858)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Syn.: Heterocrepidius puberulus Boheman, 1858, Ischiodontus inornatus Candéze, 1859, fide Peck (2006)
   Origin: Native, Indigenous.
   Galapagos Distribution: Isabela, San Cristóbal, Santa Cruz.

199. *Dipropus sp. nov. 1*
   Taxon status: Unpublished name (Nomen nudum).
   Origin: No Data.
   Galapagos Distribution: Isabela, Santa Cruz.

200. *Docema galapagoensis*  (G.R. Waterhouse, 1845)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Syn.: Haltica galapagoensis G.R. Waterhouse, 1845, fide Peck (2006). This species is the type for the genus, and is still known only from the unique specimen collected by Charles Darwin (Peck 2005).
   Origin: Native, Endemic.
   Galapagos Distribution: Española, Floreana, Isabela, Marchena, San Cristóbal, Santa Cruz, Santa Fé, Santiago.
201. *Dryotribus mimeticus*  Horn, 1873  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Indigenous.  
**Galapagos Distribution:** Española, Fernandina, Isabela, Marchena, San Cristóbal, Santa Cruz.  

202. *Eburia lanigera*  Linell, 1898  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
Syn.: *Eburia amabilis* Boheman, 1859, fide Peck (unpublished)  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago.  

203. *Eburia pilosa*  (Erichson, 1833)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Indigenous.  
**Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz, Santiago.  

204. *Echiaster leleupi*  Coiffait, 1981  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Santa Cruz.  

205. *Eidoreus minutus*  Sharp, 1885  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Indigenous.  
**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.  
**References:** Peck, S.B. et al. (2006).

**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Fernandina, Pinta, Santa Cruz.

207. **Endeius ovaliceps**  Coiffait, 1981

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** San Cristóbal, Santa Cruz.

208. **Enochrus obscurus**  (Sharp, 1882)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz, Santiago.

209. **Enochrus waterhousei**  Blair, 1933

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Genovesa, Isabela, Marchena, Santa Cruz, Santiago.

210. **Eretes sticticus**  (Linnaeus, 1767)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Syn.:** Eunectes occidentalis

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Española, Floreana, Isabela, San Cristóbal, Santa Cruz, Santa Fé.

211. **Espeson cruzensis**  Coiffait, 1981

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

212. **Espeson franzii**  Coiffait, 1981

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz, Santiago.

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

214. *Estola insularis cribrata* Blair, 1933

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Estola cribrata Blair, 1933, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

215. *Estola insularis duncani* Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Pinzón, Santa Cruz.

216. *Estola insularis insularis* Blair, 1933

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

**References:** Linsley, E.G. et al. (1966), Linsley, E.G. et al. (1977), Peck, S.B. et al. (2006).

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Santa Cruz.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006).

218. *Estoloides galapagoensis* Blair, 1933

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Estola galapagoensis Blair, 1933, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Isabela, Santa Cruz, Santa Fé, Santiago.

219. *Eubulus coecus*  (Fabricius, 1801)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

220. *Eubulus pilipetus*  Champion, 1905
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Floreana, San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

221. *Euconnus sp. nov.*
   **Taxon status:** Unpublished name (Nomen nudum).
   This is probably an undescribed species.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Isabela, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

222. *Euscepes postfasciatus*  (Fairmaire, 1849)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Isabela, Santa Cruz.

223. *Euspilotus batesoni*  Blair, 1933
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   Syn.: Saprinus batesoni Blair, 1933, fide Peck (2006)
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Darwin, Española, Genovesa, Isabela, Pinta, Santa Cruz, Wolf.
   **References:** Blair, K.G. et al. (1933), Linsley, E.G. et al. (1966), Mutchler, A.J. et al. (1938), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

224. *Euspilotus nigritus*  (Blanchard, 1842)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   Syn.: Saprinus modestior Van Dyke, 1953, fide Peck (2006)
   **Origin:** Introduced, Questionable Native.
   **Galapagos Distribution:** Española, Fernandina, Floreana, Isabela, Pinta, Santa Cruz, Santiago.
   **References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

225. *Euthiconus sp.*
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   Probably an undescribed species, the record is based on one specimen.
   **Origin:** Native, Endemic.
Galapagos Distribution: Isabela, Santa Cruz.

Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Endemic.
Galapagos Distribution: Santa Cruz.

227. *Euxestus erithaeus* Chevrolat, 1863
Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Introduced, Accidental.
Galapagos Distribution: Isabela, San Cristóbal, Santa Cruz, Santiago.

228. *Fallia colorata* John, 1959
Taxon status: Accepted name; taxon occurs in Galapagos.
Lawrence and Newton (1995) point out that “The grammatically correct spellings of the family and
nominotypical subfamily names are Discolomatidae and -inae, respectively, not Discolomidae and -inae
Origin: Native, Endemic.
Galapagos Distribution: Santa Cruz.

229. *Fallia galapagana* John, 1959
Taxon status: Accepted name; taxon occurs in Galapagos.
Lawrence and Newton (1995) point out that “The grammatically correct spellings of the family and
nominotypical subfamily names are Discolomatidae and -inae, respectively, not Discolomidae and -inae
Origin: Native, Endemic.
Galapagos Distribution: Fernandina, Isabela, Santa Cruz, Santiago.

230. *Faustinus rhombifer* (Champion, 1905)
Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Indigenous.
Galapagos Distribution: Española, Floreana, Isabela, San Cristóbal, Santa Cruz, Santiago.

231. *Feluvia franzi* Pace, 1985
Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Endemic.
Galapagos Distribution: Floreana, Isabela, Marchena, Pinta, Santa Cruz, Santiago.

232. *Fornax sp.*
Taxon status: Taxon not identified to species, subspecies, form or variety.
Origin: Native, Questionable Endemic.
Galapagos Distribution: Isabela, Santa Cruz.

233. *Galapaganus ashlocki*  Lanteri, 1992
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Endemic.
   Galapagos Distribution: San Cristóbal, Santa Cruz.

234. *Galapaganus blairi*  (Van Dyke, 1953)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Syn.: Pantomorus blairi Van Dyke, 1953, fide Peck (2006)
   Origin: Native, Endemic.
   Galapagos Distribution: Santa Cruz, Santiago.

235. *Galapaganus caroli*  (Van Dyke, 1953)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Endemic.
   Galapagos Distribution: Floreana.

236. *Galapaganus collaris*  Lanteri, 1992
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Endemic.
   Galapagos Distribution: Floreana, San Cristóbal.

237. *Galapaganus conwayensis*  (Mutchler, 1938)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Endemic.
   Galapagos Distribution: Santa Cruz.

238. *Galapaganus crockeri*  (Van Dyke, 1953)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Syn.: Pantomorus crockeri Van Dyke, 1953
Origin: Native, Endemic.

Galapagos Distribution: Genovesa, Pinta.

239. *Galapaganus darwini*  
Lanteri, 1992  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Darwin, Wolf.  

240. *Galapaganus galapagoensis*  
(Linell, 1898)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Floreana, San Cristóbal.  

241. *Galapaganus howdenae*  
Lanteri, 1992  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Introduced, Accidental.  
**Galapagos Distribution:** Santa Cruz.  
**References:** Lanteri, A.A. et al. (1992), Peck, S.B. et al. (2006), Sequeira, A.S. et al. (2000).

242. *Galapaganus vandykei*  
Lanteri, 1992  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Española, Floreana, San Cristóbal.  
**References:** Lanteri, A.A. et al. (1992), Peck, S.B. et al. (2006), Sequeira, A.S. et al. (2000).

243. *Galapaganus williamsi*  
(Blair, 1933)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Isabela.  

244. *Galapagodacnum darwini*  
(Blair, 1933)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
Syn.: *Coelostoma darwini* Blair, 1933, fide Peck (2006)  
**Origin:** Native, Endemic.
Galapagos Distribution: Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santiago.

245. *Galapagonotus cuneiformis* (G.R. Waterhouse, 1845)
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   Syn: Amphideritus cuneiformis G.R. Waterhouse, 1845, Otiorhynchus cuneiformis (G.R. Waterhouse, 1845), fide Peck (unpublished); Anderson & Lanteri (2000) could not reliably place this genus and species at the tribal level. It is here placed tentatively as Naupactini. A second species of Amphideritus suggested by Franz (1985: 100) appears to be this same species. Separate island populations show external differences but no significant differences were seen in the male genitalia between populations.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Floreana, San Cristóbal, Santa Cruz, Santiago.
   

246. *Gen. 1 Cryptorhynchini indet. sp.*
   
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   
   **Origin:** Introduced, Accidental.
   
   **Galapagos Distribution:** Santa Cruz.
   
   **References:** Peck, S.B. et al. (2006).

247. *Gen. 2 Anchonini indet. sp. nov.*
   
   **Taxon status:** Unpublished name (Nomen nudum).
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Santa Cruz.

248. *Gen. 3 Pentarthrini indet. sp.*
   
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   
   **Origin:** Native, Questionable Endemic.
   
   **Galapagos Distribution:** Santa Cruz.
   
   **References:** Peck, S.B. et al. (2006).

249. *Gen. nov. Araecerini indet. sp. nov.*
   
   **Taxon status:** Unpublished name (Nomen nudum).
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Santa Cruz.
   
   **References:** Peck, S.B. et al. (2006).

250. *Gerstaeckeria galapagoensis barringtonensis* Van Dyke, 1953
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Santa Cruz, Santa Fé.
   
   **References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).
251. *Gerstaeckeria galapagoensis galapagoensis*  Van Dyke, 1953  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Isabela, Marchena, Pinta, Santa Cruz, Santiago.  
**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006).  

252. *Gerstaeckeria galapagoensis hoodensis*  Van Dyke, 1953  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Española, Santa Cruz.  
**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).  

253. *Gerstaeckeria galapagoensis seymourensis*  Van Dyke, 1953  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Santa Cruz.  

254. *Gerstaeckeria sp. nov.*  
**Taxon status:** Taxon not identified to species, subspecies, form or variety.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Santa Cruz.  
**References:** Peck, S.B. et al. (2006).  

255. *Gnathocerus cornutus*  (Fabricius, 1798) 
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Introduced, Eradicated.  
**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz, Santa Fé, Santiago.  

256. *Gnaticerus maxillosus*  (Fabricius, 1801)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Introduced, Questionable Accidental.  
**Galapagos Distribution:** Isabela, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.  

257. *Gyrinus galapagoensis*  Van Dyke, 1953  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** San Cristóbal.  
258. *Haliplus gravidus* Aubé, 1838

**Taxon status:** Accepted name; taxon occurs in Galápagos.

**Origin:** Native, Indigenous.

**Galápagos Distribution:** Santa Cruz.

259. *Halocoryza acapulcana* Whitehead, 1966

**Taxon status:** Accepted name; taxon occurs in Galápagos.

**Origin:** Native, Indigenous.

**Galápagos Distribution:** Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (2006).

260. *Hapalips sp. 1*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galápagos Distribution:** Isabela, San Cristóbal, Santa Cruz.

**References:** Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).

261. *Hapalips sp. 2*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galápagos Distribution:** San Cristóbal, Santa Cruz.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

262. *Haptoncus luteolus* (Erichson, 1843)

**Taxon status:** Accepted name; taxon occurs in Galápagos.

**Origin:** Introduced, Accidental.

**Galápagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

263. *Heterachthes apicalis* (Blair, 1933)

**Taxon status:** Accepted name; taxon occurs in Galápagos.

**Origin:** Native, Indigenous.

**Galápagos Distribution:** Santa Cruz, Santiago.

264. *Holisus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.
Origin: Introduced, Questionable Native.
Galapagos Distribution: Santa Cruz, Santiago.

265. *Holoparamecus franzi* Rücker, 1984

**Taxon status:** Accepted name; taxon occurs in Galapagos.
**Origin:** Native, Endemic.
**Galapagos Distribution:** Santa Cruz, Santiago.

266. *Holotrochus galapagosus* Coiffait, 1981

**Taxon status:** Accepted name; taxon occurs in Galapagos.
**Origin:** Native, Endemic.
**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

**Taxon status:** Accepted name; taxon occurs in Galapagos.
**Origin:** Native, Endemic.
**Galapagos Distribution:** Isabela, Santa Cruz.

268. *Homaeotarsus franzi* (Coiffait, 1981)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.
**Galapagos Distribution:** Isabela, Santa Cruz.

269. *Homoconnus galapagoensis* Franz, 1978

**Taxon status:** Accepted name; taxon occurs in Galapagos.
**Origin:** Native, Endemic.
**Galapagos Distribution:** Santa Cruz, Santiago.

270. *Horistonotus williamsi* (Mutchler, 1925)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.
**Galapagos Distribution:** Isabela, Marchena, Pinta, Santa Cruz, Santiago.
271. *Hylocerus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Questionable Endemic.

**Galapagos Distribution:** Santa Cruz.

272. *Hypasclera collenetti* Blair, 1928

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Darwin, Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago, Wolf.

273. *Hypasclera seymoureensis* Mutchler, 1925

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz, Santa Fé, Santiago.

274. *Hyperaspis bromelicola* Sicard, 1925

**Taxon status:** Accepted name; taxon occurs in Galapagos.

A species with high variability in the size and position of the light-whitish and dark areas on the head, prothorax, and elytra. This species belongs to the subgenus Tenuisvalvae as evidenced by the narrow, elongate valves (coxites, hemisternites, or 9th sternites) of the female genitalia.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Floreana, Genovesa, Isabela, San Cristóbal, Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (2006).

275. *Hypothenemus birmanus* (Eichhoff, 1878)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Stephanoderes birmanus Eichhoff, 1878, fide Peck (2006)

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Española, Fernandina, Floreana, Isabela, San Cristóbal, Santa Cruz.

276. *Hypothenemus brunneus* (Hopkins, 1915)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz.

277. *Hypothenemus californicus*  
Hopkins, 1915  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Introduced, Accidental.  
**Galapagos Distribution:** Española, Fernandina, Floreana, Isabela, San Cristóbal, Santa Cruz.  

278. *Hypothenemus columbi*  
Hopkins, 1915  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Indigenous.  
**Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, Marchena, San Cristóbal, Santa Cruz.  

279. *Hypothenemus crudiae*  
(Panzer, 1791)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Indigenous.  
**Galapagos Distribution:** San Cristóbal, Santa Cruz.  

280. *Hypothenemus eruditus*  
Westwood, 1833  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Introduced, Questionable Native.  
**Galapagos Distribution:** Española, Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.  

281. *Hypothenemus indigenus*  
Bright & Peck, 1998  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Santa Cruz.  

282. *Hypothenemus obscurus*  
(Fabricius, 1801)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
Syn.: *Stephanoderes obscurus* Fabricius, 1801, fide Peck (unpublished)  
**Origin:** Introduced, Questionable Native.  
**Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, San Cristóbal, Santa Cruz, Santiago, Wolf.  

283. *Hypothenemus pacificus*  
Bright & Peck, 1998  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.
Galapagos Distribution: Isabela, Santa Cruz.

284. *Hypothenemus seriatus* (Eichoff, 1872)
   
   **Taxon status**: Accepted name; taxon occurs in Galapagos.
   **Origin**: Introduced, Questionable Native.
   **Galapagos Distribution**: Floreana, San Cristóbal.

285. *Ischiodontus sp.*
   
   **Taxon status**: Taxon not identified to species, subspecies, form or variety.
   **Origin**: No Data.
   **Galapagos Distribution**: Santa Cruz.

286. *Laemophloeus suturalis* Reitter, 1876
   
   **Taxon status**: Accepted name; taxon occurs in Galapagos.
   **Origin**: Introduced, Questionable Native.
   **Galapagos Distribution**: San Cristóbal, Santa Cruz.

287. *Lathrobium sp.*
   
   **Taxon status**: Taxon not identified to species, subspecies, form or variety.
   **Origin**: Introduced, Accidental.
   **Galapagos Distribution**: Santa Cruz.
   **References**: Peck, S.B. et al. (2006).

288. *Lathropus cf. parvulus* Grouvelle, 1878
   
   **Taxon status**: The identification of this taxon or its occurrence in Galapagos is doubtful. These are probably conspecific with individuals of *L. parvulus* Grouvelle of Panama. The genus is in need of revision and identification must remain tentative at present.
   **Origin**: Introduced, Questionable Native.
   **Galapagos Distribution**: Española, Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.
   **References**: Peck, S.B. et al. (1990), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).

289. *Lembodes subcostatus* Van Dyke, 1953
   
   **Taxon status**: Accepted name; taxon occurs in Galapagos.
   **Origin**: Native, Endemic.
   **Galapagos Distribution**: Darwin, Española, Floreana, Isabela, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Wolf.

290. *Lichenophanes rutilans* Reichardt, 1970
   
   **Taxon status**: Accepted name; taxon occurs in Galapagos.
Origin: Native, Endemic.
Galapagos Distribution: Española, Isabela, Marchena, San Cristóbal, Santa Cruz.

291. Liodessus aff. affinis (Say, 1823)
Taxon status: The identification of this taxon or its occurrence in Galapagos is doubtful.
Peck (2006): Liodesus affinis is distributed throughout North America and the Neotropics; to Chile and Argentina (Larson and Roughley 1990); many other species occur in tropical America and L. affinis may be a species complex.
Origin: Introduced, Questionable Native.
Galapagos Distribution: Darwin, Isabela, San Cristóbal, Santa Cruz.

292. Lispinus sulcicollis (Coiffait, 1981)
Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Endemic.
Galapagos Distribution: Isabela, San Cristóbal, Santa Cruz.

293. Lissohypnus pecki Bordoni, 2004
Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Endemic.
Galapagos Distribution: Española, Fernandina, Floreana, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santiago.

294. Litargus balteatus LeConte, 1856
Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Indigenous.
Galapagos Distribution: Fernandina, Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

295. Lithocharis jeannae Coiffait, 1981
Taxon status: Accepted name; taxon occurs in Galapagos.
Study of material is necessary to determine if this is a valid species separable from L. ochracea.
Origin: Native, Endemic.
Galapagos Distribution: Santa Cruz.

296. Lithocharis ochracea Gravenhorst, 1802
Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Indigenous.
Galapagos Distribution: Floreana, Genovesa, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santa Fé.

297. *Lithocharodes elytratus*  (Coiffait, 1981)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

**References:** Coiffait, H. et al. (1981), Peck, S.B. et al. (2006).

298. *Lobopoda galapagoensis*  Linell, 1898

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, Santa Cruz.

299. *Longitarsus galapagoensis*  Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

300. *Longitarsus lunatus*  C. Waterhouse, 1877

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Isabela.

**References:** Linsley, E.G. et al. (1966), Mutchler, A.J. et al. (1925), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

301. *Longitarsus sp. nov. 1*

**Taxon status:** Unpublished name (Nomen nudum).

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

302. *Longitarsus sp. nov. 2*

**Taxon status:** Unpublished name (Nomen nudum).

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

303. *Lyctus brunneus* Stephens, 1830
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Questionable Accidental.
   **Galapagos Distribution:** Santa Cruz.

304. *Lyctus sp.*
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

305. *Macrancylus gracilis* Van Dyke, 1953
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Floreana, Isabela, Pinta, Santa Cruz.
   **References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

306. *Macroscytalus sp.*
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** No Data.
   **Galapagos Distribution:** Santa Cruz.

308. *Mastogenius cuneaticollis* Van Dyke, 1953
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Isabela, Pinzón, Santa Cruz, Santiago.
   **References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

309. *Mastogenius galapagoensis* Van Dyke, 1953
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Española, Fernandina, Santa Cruz.
310. **Megacerus minusculus** (Pic, 1934)
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Introduced, Questionable Native.
   - **Galapagos Distribution:** Española, Marchena, Santa Cruz, Santiago.

311. **Menimopsis leleupi** (Kaszab, 1970)
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Española, Pinzón, San Cristóbal, Santa Cruz.

312. **Metachroma labrale** Blair, 1933
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Española, Floreana, Isabela, Santa Cruz, Santiago.

313. **Metamasius hemipterus** (Linnaeus, 1758)
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Introduced, Accidental.
   - **Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

314. **Metophthalmus nodosus** Rücker, 1984
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Endemic.
   - **Galapagos Distribution:** Española, Floreana, Isabela, Marchena, Pinzón, Santa Cruz, Santa Fé, Santiago.

315. **Mexico litoralis** Spilman, 1972
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
   - **Origin:** Native, Indigenous.
   - **Galapagos Distribution:** Fernandina, Santa Cruz.
   - **References:** Peck, S.B. et al. (2006).

316. **Micrapate scabrata** Erichson, 1847
   - **Taxon status:** Accepted name; taxon occurs in Galapagos.
Origin: Introduced, Questionable Native.

Galapagos Distribution: Floreana, San Cristóbal, Santa Cruz, Santiago.

317. *Microlinus pusio* (LeConte, 1880)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** San Cristóbal, Santa Cruz, Santiago.

318. *Microxypterus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

319. *Mimographus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (2006).

320. *Minthea rugicollis* (Walker, 1858)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

321. *Molamba sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Isabela, Pinta, Santa Cruz.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

322. *Monanus concinnulus* Walker, 1858

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

323. *Monotoma sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.
Origin: Introduced, Questionable Native.
Galapagos Distribution: San Cristóbal, Santa Cruz.

324. *Mordellistena galapagoensis* Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.
**Origin:** Native, Endemic.
**Galapagos Distribution:** Fernandina, Floreana, Genovesa, Isabela, Pinta, Pinzón, Santa Cruz, Santiago.

325. *Mordellistena sp. 1*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.
**Origin:** Native, Questionable Endemic.
**Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago.
**References:** Peck, S.B. et al. (2006).

326. *Mordellistena sp. 2*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.
only one specimen known, in CAS (Peck 2006)
**Origin:** Native, Questionable Endemic.
**Galapagos Distribution:** Isabela, Santa Cruz, Santiago.
**References:** Peck, S.B. et al. (2006).

327. *Mulsanteus sp. nov.*

**Taxon status:** Unpublished name (Nomen nudum).
**Origin:** Native, Endemic.
**Galapagos Distribution:** Isabela, Santa Cruz.
**References:** Peck, S.B. et al. (2006).

328. *Murmidius ovalis* (Beck, 1817)

**Taxon status:** Accepted name; taxon occurs in Galapagos.
**Origin:** Introduced, Accidental.
**Galapagos Distribution:** Santa Cruz.
**References:** Peck, S.B. et al. (2006).

329. *Mychocerus cf. discretus* (Casey, 1890)

**Taxon status:** The identification of this taxon or its occurrence in Galapagos is doubtful.
**Origin:** Introduced, Questionable Native.
**Galapagos Distribution:** Isabela, Santa Cruz.
**References:** Peck, S.B. et al. (2006).

330. *Myllaena leleupi* Pace, 1985

**Taxon status:** Accepted name; taxon occurs in Galapagos.
331. *Myochrous* sp.
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Introduced, Questionable Native.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Peck, S.B. et al. (1993).

332. *Myrmecocephalus cingulatus* (LeConte, 1866)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Peck, S.B. et al. (1998).

333. *Myrmecocephalus concinnus* (Erichson, 1840)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** San Cristóbal, Santa Cruz.
   **References:** Klimaszewski, J. et al. (1998), Peck, S.B. et al. (2006).

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Santa Cruz.

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Floreana, Santa Cruz.

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz, Santiago.
337. *Naucles sp. 1*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Española, Fernandina, Floreana, Isabela, Marchena, Pinta, Santa Cruz, Santa Fé, Santiago.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

338. *Naucles sp. 2*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Fernandina, Floreana, Genovesa, Marchena, Pinta, Santa Cruz, Santa Fé, Santiago.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

339. *Naucles sp. 3*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Darwin, Fernandina, Isabela, Pinta, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

340. *Necrobia rufipes*  De Geer, 1775

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Syn.:** Corynetes rufipes Auct., fide Peck (2006)

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Floreana, Genovesa, Isabela, Santa Cruz, Santiago.

341. *Neohypnus galapagoensis*  Bordoni, 2004

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (2006).

342. *Neoryctes galapagoensis*  (G.R. Waterhouse, 1845)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Syn.:** Oryctes galapagoensis G.R. Waterhouse, 1845, Parapseudoryctes galapagoensis (G.R. Waterhouse, 1845), fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

343. *Neoryctes linelli*  Mutchler, 1938

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** San Cristóbal.

344. *Neoryctes moreti*  Dechambre, 1991

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

345. *Neoryctes williamsi*  Cook, Howden, & Peck, 1995

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Santa Cruz.

346. *Neoxantholinus galapagoensis*  (Coiffait, 1981)

**Syn.:** Neolinus galapagoensis Coiffait, 1981, fide Peck (2006). The genus Neolinus Coiffait 1981 is now judged a to be a synonym of the more widespread Neoxantholinus (Bordoni 2004) and is thus removed from the list of endemic genera.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Marchena, Santa Cruz.

347. *Nesaecrepida darwini*  (Mutchler, 1925)

**Syn.:** Docema darwini Mutchler, 1925, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, Marchena, Pinta, Santa Cruz, Santa Fé.

348. *Nesoeme kuscheli*  Linsley & Chemsak, 1966

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

349. *Nesozoneus galapagoensis galapagoensis* (Van Dyke, 1953)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Syn.:** Leptostylus galapagoensis Linell, 1898, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

350. *Nesozoneus galapagoensis variabilis* Linsley & Chemsak, 1966

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

351. *Nesozoneus galapagoensis williamsi* (Van Dyke, 1953)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Syn.:** Leptostylus williamsi Van Dyke, 1953, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

**References:** Linsley, E.G. et al. (1966), Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

352. *Ochthebius batesoni* Blair, 1933

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Genovesa, Isabela, San Cristóbal, Santa Cruz, Santiago.

353. *Oligota chrysopyga* Kraatz, 1859

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, Marchena, San Cristóbal, Santa Cruz.

354. *Oligotergus fasciatus* (Nordman, 1837)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (2006).

355. *Olla hageni* Vandenberg, 1992

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Syn.:** Olla abdominalis Say, 1824, fide Peck (2006). The Galápagos species is most closely related to O.
v-nigrum (Mulsant), which is widespread throughout most of North, Central, and South America and the West Indies. Hybrids between O. v-nigrum from California and O. hageni from Santa Cruz died in their egg shells (Vandenburg 1992).

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

**References:** Linsley, E.G. et al. (1966), Mutchler, A.J. et al. (1938), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

356. *Olla lacrimosa*  
Vandenberg, 2004

**Taxon status:** Accepted name; taxon occurs in Galapagos.

This and Olla hageni are sister species, representing a single colonization of the Galápagos by the ancestor of O. v-nigrum.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

357. *Omicrus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

This is a group of very small beetles which scavenge in decomposing plant debris. Many difficult and separate species occur in South America (Smetana 1975).

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

358. *Omonadus floralis*  
(Linnaeus, 1758)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

359. *Oморgус indigенus*  
Scholtz, 1990

**Taxon status:** Accepted name; taxon occurs in Galapagos.

This species probably descended from an ancestor of O. suberosus.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Santa Cruz.

360. *Оmorгус suberosus*  
(Fabricius, 1775)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Trox suberosus Fabricius, 1775, fide Peck (2006)

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.

361. *Oosternum costatum*  Sharp, 1882  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Indigenous.  
**Galapagos Distribution:** Fernandina, Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.  

362. *Ormiscus variegatus*  G.R. Waterhouse, 1845  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
This species is highly variable in colour and pattern of setae, and this suggests the presence of a species complex. Wing dimorphism occurs at high elevations on Santa Cruz, where some individuals are flightless and others have normal wings. All specimens examined from Wolf Island are flightless.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago, Wolf.  

363. *Orphinus sp.*  
**Taxon status:** Taxon not identified to species, subspecies, form or variety.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Floreana, Isabela, Santa Cruz.  
**References:** Peck, S.B. et al. (2006).

364. *Orthoperus sp.*  
**Taxon status:** Taxon not identified to species, subspecies, form or variety.  
There are possibly two species present (J. Pakaluk, pers. comm.).  
**Origin:** Introduced, Questionable Native.  
**Galapagos Distribution:** Floreana, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santiago.  
**References:** Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).

365. *Oryzaephilus surinamensis*  Linnaeus, 1758  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Introduced, Accidental.  
**Galapagos Distribution:** San Cristóbal, Santa Cruz.  

**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** San Cristóbal, Santa Cruz.  

**Taxon status:** Accepted name; taxon occurs in Galapagos.
Syn.: Oxacis pilosa Champion, 1890, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Isabela, Santa Cruz, Santiago.

368. *Oxytelus incisus* Motschulsky, 1857

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (2006).

369. *Pagiocerus frontalis* (Fabricius, 1801)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Isabela, Santa Cruz.

370. *Parandra galapagoensis* Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Isabela, Santa Cruz, Santiago.

371. *Paratenetus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

The record is based on a single specimen. The genus contains many species in the Neotropics and is in need of revision.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (2006).

372. *Paromalus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (2006).

373. *Paroxacis galapagoensis* (Linell, 1898)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Oxacis galapagoensis Linell, 1898, fide Peck (2006)

**Origin:** Native, Endemic.
**Galapagos Distribution:** Española, Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

### 374. *Passalus punctiger* Lepeltier & Serville, 1825

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Syn.:** Passalus interruptus Linnaeus, 1767, Neleus tascala Percheron, 1835, fide Peck (2006). This record needs to be verified. The record was collected by US Fish Commission steamer “Albatross” in 1891 under direction of A. Agassiz, Smithsonian Archives, USNM, acc. 25157. The specimen is in NMNH (Schuster 1983: 299).

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** San Cristóbal, Santa Cruz.

### 375. *Pelonium longfieldae* Blair, 1928

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.

### 376. *Pentagonica flavipes flavipes* (LeConte, 1853)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.

### 377. *Pentilia sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, San Cristóbal, Santa Cruz, Santa Fé.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

### 378. *Perepitragus solieri* Casey, 1907

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Syn.:** Perepitragus fuscipes Van Dyke, 1953, fide Peck (2006)

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Española, Floreana, Isabella, San Cristóbal, Santa Cruz.

**References:** Franz, H. et al. (1985), Kaszab, Z. et al. (1970), Linsley, E.G. et al. (1977), McMullen, C.K. et

379. Phalacrus darwini  C. Waterhouse, 1877
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Fernandina, Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.
   **References:** Mutchler, A.J. et al. (1925), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006), Smith, E.A. et al. (1877).

380. Phaleria manicata  Boheman, 1858
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

381. Phalerota tridentata  Klimaszewski & Peck, 1998
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Questionable Native.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Klimaszewski, J. et al. (1998), Peck, S.B. et al. (2006).

382. Philonthus discoideus  (Gravenhorst, 1802)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

383. Philonthus pauxillus  Solsky, 1868
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

384. Philonthus ventralis  (Gravenhorst, 1802)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

385. Physorhinus galapagoensis  G.R. Waterhouse, 1845
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
Syn.: Anchastus galapagoensis G.R. Waterhouse, 1845, Physorhinus batesoni Van Dyke, 1953, Physorhinus blairi Van Dyke, 1953, Physorhinus chathami Van Dyke, 1953, Physorhinus hoodi Van Dyke, 1953, fide Peck (2006). The synonyms were interpreted as species by Van Dyke but are now interpreted to represent inconsistent population variation between islands.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Fernandina, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

**References:** Linell, M.L. et al. (1898), Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953), Waterhouse, G.R. et al. (1845).

---

386. *Physorhinus quirsfeldi* (Mutchler, 1938)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Physorhinus dichroa Van Dyke, 1953, fide Peck (2006), Anchastus quirsfeldi Mutchler, 1938

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Pinta, Pinzón, Santa Cruz.

---

387. *Physorhinus ruficeps* Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Pinta, Santa Cruz, Santiago.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

---

388. *Physorhinus sp. nov. 1*

**Taxon status:** Unpublished name (Nomen nudum).

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

---

389. *Piestus minutus* Erichson, 1840

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** San Cristóbal, Santa Cruz.

**References:** Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).

---

390. *Piestus pygmaeus* Laporte, 1834

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

---

391. *Piestus sulcatus* Gravenhorst, 1806

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Isabela, Santa Cruz.

392. *Pinostygus galapagoensis* Campbell & Peck, 1989  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Santa Cruz.  

393. *Pitnus galapagoensis galapagoensis* (Franz, 1985)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
Syn.: *Nitpus galapagoensis* Franz, 1985, fide Peck (unpublished)  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Española, Floreana, Santa Cruz, Santa Fé, Santiago.  
**References:** Peck, S.B. et al. (2006).

394. *Pitnus galapagoensis lapidicola* Belles, 1992  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, Marchena, San Cristóbal, Santa Cruz, Santiago.  
**References:** Peck, S.B. et al. (2006).

395. *Pitnus pintae grandis* Belles, 1992  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Santa Cruz.  
**References:** Peck, S.B. et al. (2006).

396. *Pitnus pintae pintae* (Franz, 1985)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
Known only from the holotype specimen.  
**Origin:** Native, Endemic.  
**Galapagos Distribution:** Pinta, Santa Cruz.  
**References:** Peck, S.B. et al. (2006).

397. *Placonotus politissimus* (Wollaston, 1867)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Introduced, Accidental.  
**Galapagos Distribution:** Santa Cruz.  
**References:** Peck, S.B. et al. (2006).

398. *Platynus albemarli* (Van Dyke, 1953)  
**Taxon status:** Accepted name; taxon occurs in Galapagos.  
**Origin:** Native, Endemic.
Galapagos Distribution: Isabela, Santa Cruz.

399. *Platynus chathami* (Van Dyke, 1953)
  Taxon status: Accepted name; taxon occurs in Galapagos.
  Origin: Native, Endemic.
  Galapagos Distribution: San Cristóbal.

400. *Platynus darwini* (Van Dyke, 1953)
  Taxon status: Accepted name; taxon occurs in Galapagos.
  Origin: Native, Endemic.
  Galapagos Distribution: San Cristóbal, Santa Cruz.

401. *Platypus linearis* Stephens, 1832
  Taxon status: Accepted name; taxon occurs in Galapagos.
  Origin: Introduced, Questionable Native.
  Galapagos Distribution: Isabela, San Cristóbal, Santa Cruz, Santiago.

402. *Platypus santacruzensis* Mutchler, 1925
  Taxon status: Accepted name; taxon occurs in Galapagos.
  Origin: Native, Endemic.
  Galapagos Distribution: Fernandina, Isabela, Marchena, San Cristóbal, Santa Cruz, Santiago.

403. *Platystethus spiculus* Erichson, 1840
  Taxon status: Accepted name; taxon occurs in Galapagos.
  Origin: Introduced, Accidental.
  Galapagos Distribution: Floreana, Isabela, San Cristóbal, Santa Cruz.

404. *Platyomus darwini* (Cartwright, 1970)
  Taxon status: Accepted name; taxon occurs in Galapagos.
  Its closest relative is Platyomus gregalis of Colombia. Syn.: Diastichus darwini Cartwright, 1970, fide Peck
405. *Polynoncus galapagoensis*  
*Van Dyke, 1953*

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Darwin, Isabela, San Cristóbal, Santa Cruz, Santiago, Wolf.

406. *Polynoncus seymourensis*  
*Mutchler, 1925*

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, Santa Cruz, Santiago.

407. *Polytus mellerborgii*  
*(Boheman, 1838)*

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

408. *Prateus dentatus*  
*Van Dyke, 1953*

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Fernandina, Floreana, Pinzón, Santa Cruz, Santa Fé.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

409. *Pseudopentarthrum cunicollis*  
*(Van Dyke, 1953)*

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, Marchena, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

410. **Pseudopentarthurum glabrum** (Van Dyke, 1953)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Pinta, San Cristóbal.

411. **Pseudopentarthurum sp. 1**

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Isabela.

412. **Pseudopentarthurum sp. 2**

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Intercepted.

**Galapagos Distribution:** Fernandina, Isabela, San Cristóbal, Santa Cruz, Santa Fé.

**References:** Pedersen, T.M. et al. (1987).

413. **Pseudopentarthurum towerensis** (Mutchler, 1925)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: P. mutchleri (Van Dyke, 1953), Neopentarthurum towerensis Mutchler, 1925, fide Peck (2006), Neopentarthurum mutchleri Van Dyke, 1953

**Origin:** Introduced, Intercepted.

**Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

**References:** Blair, K.G. et al. (1933), Linsley, E.G. et al. (1966), Mutchler, A.J. et al. (1925), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

414. **Pseudothysanoes isolatus** Bright & Peck, 1998

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Pinta, Santa Cruz.

**References:** Bright, D.E. et al. (1998).

415. **Psyllobora bisigma** Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).

416. **Pterostichus becki** (Van Dyke, 1953)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Pterostichus galapagoensis becki, fide Peck (2006), Feronia becki Van Dyke, 1953
Origin: Native, Endemic.
Galapagos Distribution: Santa Cruz, Santiago.

417. *Pterostichus blairi* (Van Dyke, 1953)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Origin: Native, Endemic.
   Galapagos Distribution: Santiago.

418. *Pterostichus calathoides* (G.R. Waterhouse, 1845)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Syn.: Ferronia calathoides G.R. Waterhouse, 1845, Poecilus calathoides (G.R. Waterhouse, 1845), fide Desender et al. (1989)
   Origin: Native, Endemic.
   Galapagos Distribution: San Cristóbal.

419. *Pterostichus duncani* (Van Dyke, 1953)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Syn.: Feronia duncani Van Dyke, 1953, fide Desender et al. (1989)
   Origin: Native, Endemic.
   Galapagos Distribution: Pinzón.

420. *Pterostichus galapagoensis* (G.R. Waterhouse, 1845)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Syn.: Feronia galapagoensis G.R.Waterhouse, 1845, Platynus galapagoensis (G.R. Waterhouse, 1845), fide Peck (2006); S. Peck: the subspecies P. g. galapagoensis is of doubtful utility, Pterostichus galapagoensis becki Van Dyke, 1953 is now regarded as a synonym of Pterostichus becki (Van Dyke, 1953)
   Origin: Native, Endemic.
   Galapagos Distribution: Santa Cruz, Santiago.

421. *Pterostichus insularis* (Boheman, 1858)
   Taxon status: Accepted name; taxon occurs in Galapagos.
   Syn.: Feronia insularis Boheman, 1858, fide Peck (2006)
   Origin: Native, Endemic.
**Galapagos Distribution:** Isabela.

422. *Pterostichus leleuporum* Reichardt, 1976

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

423. *Pterostichus mutchleri* (Van Dyke, 1953)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela.

424. *Pterostichus sp. 10*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

425. *Pterostichus sp. 11*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

426. *Pterostichus sp. 12*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

**References:** Peck, S.B. et al. (2006).

427. *Pterostichus waterhousei* (Van Dyke, 1953)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Floreana.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953).
428. *Pterostichus williamsi* (Van Dyke, 1953)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   Syn.: Feronia williamsi Van Dyke, 1953, fide Desender et al. (1989)
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Santa Cruz.

429. *Ptinella galapagana* Johnson, 1982
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Floreana, Santa Cruz, Santiago.

430. *Ptinellodes darwini* Johnson, 1982
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Floreana, Marchena, Santa Cruz.

431. *Pycnarthrum insulare* Blair, 1933
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, San Cristóbal, Santa Cruz, Santiago.

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   Syn.: Rhantus signatus (Fabricius 1775), fide Peck & Balke (1993)
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** San Cristóbal, Santa Cruz.

433. *Rodolia cardinalis* (Mulsant, 1850)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Cultivated.
   **Galapagos Distribution:** Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.
434. **Rothium ashlocki** Ahn & Ashe, 1996
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Santa Cruz.
   
   **References:** Klimaszewski, J. et al. (1998), Peck, S.B. et al. (2006).

   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Fernandina, Floreana, Isabela, Pinta, Santa Cruz, Wolf.
   
   **References:** Klimaszewski, J. et al. (1998), Peck, S.B. et al. (2006).

436. **Sapintus sp. nov.**
   
   **Taxon status:** Unpublished name (Nomen nudum).
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Fernandina, Santa Cruz.
   

437. **Saprinus sp.**
   
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   
   record based on one specimen collected by Ashlock, 1964, in Bishop Museum
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Darwin, Santa Cruz.
   
   **References:** Peck, S.B. et al. (2006).

438. **Scarites galapagoensis** Linell, 1898
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz.
   

439. **Scarites williamsi** Van Dyke, 1953
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Isabela.
   

440. **Scopaeus galapagosus** Coiffait, 1981
   
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   
   
   **Origin:** Native, Endemic.
   
   **Galapagos Distribution:** Isabela, Pinta, Santa Cruz, Santiago.

441. *Scutobruchus ceratioborus* (Philippi, 1859)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Española, Isabela, Pinzón, San Cristóbal, Santa Cruz.

442. *Scydmaenus galapagoensis* Franz, 1978

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

443. *Scymnobius galapagoensis* (G.R. Waterhouse, 1845)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Española, Fernandina, Floreana, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

**References:** Blair, K.G. et al. (1933), Linell, M.L. et al. (1898), Linsley, E.G. et al. (1966), Mutchler, A.J. et al. (1925), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006), Van Dyke, E.C. et al. (1953), Waterhouse, G.R. et al. (1845).

444. *Scymnobius scalesius* Gordon & Gonzalez, 2004

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Peck & Kukalova-Peck 1990: 1636 (as *Nephus* sp.)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

**References:** Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).

445. *Selenophorus galapagoensis galapagoensis* G.R. Waterhouse, 1845

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Selenophorus galapagoensis* G.R. Waterhouse, 1845

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz.

446. *Selenophorus galapagoensis wenmani* Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.
Syn.: Selenophorus wenmani Van Dyke, 1953, fide Peck (2006); Ball & Maddison (1987: 253) indicate that all the Galápagos forms of Selenophorus might be united under the single species name S. obscuricornis. This is certainly an error and a least S. galapagoensis and S. obscuricornis are valid and easily distinguished species. There is still doubt as to the status of S. g. wenmani. Genetic work is in progress (Desender & co-workers).

**Origin:** Native, Endemic.

**Galapagos Distribution:** Darwin, Marchena, Pinta, Santa Cruz, Wolf.

447. *Selenophorus obscuricornis* (G.R. Waterhouse, 1845)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Amblygnathus obscuricornis G.R. Waterhouse, 1845, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Fernandina, Isabela, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

448. *Sennorhynchus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** San Cristóbal, Santa Cruz.

**References:** Peck, S.B. et al. (1998), Peck, S.B. et al. (2006).

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Pinzón, Santa Cruz, Santiago.

450. *Sericoderus sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Española, Fernandina, Floreana, Isabela, Marchena, San Cristóbal, Santa Cruz.

**References:** Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (1998), Peck, S.B. et al. (2006).
452. *Silvanus sp.*
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Peck, S.B. et al. (1993).

453. *Sinoxylon conigerum* Gestacker, 1855
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Floreana, Santa Cruz.
   **References:** Peck, S.B. et al. (1998), Peck, S.B. et al. (2006).

454. *Sitophagus hololeptoides* (Laporte, 1840)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Questionable Native.
   **Galapagos Distribution:** Isabela, Santa Cruz, Santa Fé.

455. *Sitophagus sp. 2*
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Introduced, Questionable Native.
   **Galapagos Distribution:** Fernandina, Genovesa, Santa Cruz, Santa Fé, Santiago.
   **References:** Peck, S.B. et al. (2006).

456. *Sitophilus oryzae* (Linnaeus, 1763)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Española, Fernandina, Floreana, San Cristóbal, Santa Cruz.

457. *Sosylus aff. dentiger* Horn, 1878
   **Taxon status:** The identification of this taxon or its occurrence in Galapagos is doubtful.
   **Origin:** Introduced, Questionable Native.
   **Galapagos Distribution:** Santa Cruz.
   **References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

458. *Stegobium paniceum* (Linnaeus, 1761)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** San Cristóbal, Santa Cruz, Santiago.

459. *Stelidota insularis* Van Dyke, 1953
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
This may prove to be a synonym of S. strigosa (Gyll.), or a separate introduced species.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.

460. *Stelidota* sp. 1

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (2006).

461. *Stenodontes molarius galapagoensis* Mutchler, 1938

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Mallodon molarius galapagoensis* (Mutchler, 1938), fide Peck (2006); *Stenodontus galapagoensis* Mutchler, 1938, fide Peck (unpublished)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

462. *Stenodontes molarius glabratus* Linsley & Chemsak, 1966

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** San Cristóbal, Santa Cruz.

**References:** Linsley, E.G. et al. (1966), Linsley, E.G. et al. (1977), Peck, S.B. et al. (2006).

463. *Stenodontes molarius vandykei* Linsley & Chemsak, 1966

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Santa Cruz.

**References:** Linsley, E.G. et al. (1966), Linsley, E.G. et al. (1977), Peck, S.B. et al. (2006).

464. *Stethusa dichroa* (Gravenhorst, 1802)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Atheta dichroa* (Gravenhorst, 1802), fide Peck (2006)

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.

**References:** Klimaszewski, J. et al. (1998), Peck, S.B. et al. (2006).

465. *Stethusa lurida* (Erichson, 1840)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Atheta lurida* Erichson, 1840, fide Peck (2006)

**Origin:** Introduced, Questionable Native.
**Galapagos Distribution:** Fernandina, Santa Cruz, Santiago.

466. *Stichotyphus basilewski*  Español, 1976

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

467. *Stilicopsis galapagosa* (Coiffait, 1981)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, San Cristóbal, Santa Cruz, Santiago.

468. *Stomion cribricollis*  Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Darwin, Genovesa, Wolf.

469. *Stomion galapagoensis*  G.R. Waterhouse, 1845

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Stomion galapagoense Waterhouse, 1845, Stomion carinipenne Linell, 1898, Stomion carinatipenne Blair, 1933, Stomion piceum Linell, 1898, fide Peck (2006), Stomion galapagoensis galapagoensis G.R. Waterhouse, 1845, Stomion galapagoense galapagoense Waterhouse, 1845

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Floreana, Santa Cruz.

470. *Stomion genovesa*  Finston & Peck, 2004

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Genovesa.

471. *Stomion helopoides*  G.R. Waterhouse, 1845

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** San Cristóbal.

472. Stomion laevigatum  G.R. Waterhouse, 1845

Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Endemic.
Galapagos Distribution: Fernandina, Isabela, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

473. Stomion linelli  Blair, 1933

Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Endemic.
Galapagos Distribution: Isabela, Santa Cruz, Santiago.

474. Stomion longicornis  Van Dyke, 1953

Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Endemic.
Galapagos Distribution: Española.

475. Stomion longulum  Van Dyke, 1953

Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Endemic.
Galapagos Distribution: Isabela, Santa Cruz.

476. Stomion obesum  Van Dyke, 1953

Taxon status: Accepted name; taxon occurs in Galapagos.
Origin: Native, Endemic.
**Galapagos Distribution:** Isabela, Pinzón, Santa Cruz.

477. **Stomion punctipennis**  
Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Stomion galapagoensis punctipennis Van Dyke, 1963, fide Peck (2006), Stomion galapagoense punctipennis Van Dyke, 1953

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española.

478. **Stomion rugosum**  
Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Marchena, Pinta.

479. **Strongylaspis kraepelini**  
Lameere, 1903

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** No Data.

**Galapagos Distribution:** Santa Cruz.

480. **Strongylaspis kraepelini parvula**  
Linsley & Chemsak, 1966

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz.

**References:** Linsley, E.G. et al. (1966), Linsley, E.G. et al. (1977), Linsley, E.G. et al. (1976), Peck, S.B. et al. (2006).

481. **Strongylaspis kraepelini ssp. indet.**

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Santa Cruz, Santiago.

**References:** Linsley, E.G. et al. (1966), Peck, S.B. et al. (2006).

482. **Sunius aptera**  
(Coiffait, 1981)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Marchena, Santa Cruz, Santiago.

483. *Sunius debilicornis* (Wollaston, 1857)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Fernandina, Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.
   **References:** Coiffait, H. et al. (1981), Peck, S.B. et al. (2006).

484. *Synchita sp. 1*
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   Given subfamily rank within the Zopheridae by Slipinski and Lawrence (1999)
   **Origin:** Native, Questionable Endemic.
   **Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz.
   **References:** Peck, S.B. et al. (2006).

   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Darwin, Fernandina, Floreana, Genovesa, Isabela, Pinta, Pinzón, Santa Cruz, Santa Fé, Wolf.

486. *Tachys sp. 3*
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Native, Questionable Endemic.
   **Galapagos Distribution:** Floreana, San Cristóbal, Santa Cruz, Santiago.
   **References:** Desender, K. et al. (2001), Peck, S.B. et al. (2006).

487. *Tachys sp. 4*
   **Taxon status:** Taxon not identified to species, subspecies, form or variety.
   **Origin:** Native, Endemic.
   **Galapagos Distribution:** Fernandina, Floreana, Isabela, Pinta, Santa Cruz, Santa Fé, Wolf.
   **References:** Peck, S.B. et al. (2006).

488. *Tachys vittiger* LeConte, 1851
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Native, Indigenous.
   **Galapagos Distribution:** Española, Floreana, Genovesa, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santa Fé, Santiago.
489. *Tarsostenus univittatus* (Rossi, 1792)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

490. *Tenebroides sp.*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

The single Franz specimen bears a label “Tenebroides galapagoensis” (Peck 2005)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Isabela, Santa Cruz.

491. *Tetrapriocera longicornis* (Olivier, 1795)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Tetrapriocera tridens* Lesne (non Fabricius), 1901 fide Peck (2006)

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Española, Floreana, Isabela, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santiago.

492. *Thalpius sp. 1*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Marchena, Santa Cruz.

493. *Thalpius sp. 2*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

494. *Thecturota franzi* Pace, 1985

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: *Leptischnusa franzi* Pace, fide Peck (2006)

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Floreana, Isabela, Marchena, Pinta, Pinzón, San Cristóbal, Santa Cruz, Santiago.

495. *Thermonectus basillaris galapagoensis* Van Dyke, 1953

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.
**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz, Santiago.

496. *Thoracophorus galapagosus*  Coiffait, 1981

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

497. *Tribolium castaneum*  Herbst, 1797

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

498. *Trichodesma denticollis*  Blair, 1928

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Española, Floreana, Isabela, Santa Cruz, Santiago.

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Fernandina, Floreana, Genovesa, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santa Fé, Santiago.

**References:** Español F. et al. (1976), Peck, S.B. et al. (2006).

500. *Trigonodera lineata*  (Champion, 1891)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

**References:** Causton, C. et al. (2008), Peck, S.B. et al. (1990), Peck, S.B. et al. (2006).

501. *Trogoderma sp. 1*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Isabela, Santa Cruz, Santiago.

**References:** Peck, S.B. et al. (2006).

502. *Trogoderma sp. 2*

**Taxon status:** Taxon not identified to species, subspecies, form or variety.
**Origin:** Native, Indigenous.

**Galapagos Distribution:** Española, Santa Cruz, Santa Fé.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).

---

503. *Trogoderma* sp. 3

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (2006).

---

504. *Trogossita* galapagoensis  (Mutchler, 1938)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

---

505. *Trogoxylon* sp. 1

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Floreana, Santa Cruz.

---

506. *Trogoxylon* sp. 2

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

---

507. *Tropicus* sp.

**Taxon status:** Taxon not identified to species, subspecies, form or variety.

Record based on only one specimen (label data: Santa Cruz, 100–300m, 17.IX.1970, J. Sedlacek, BPBM), which needs to be confirmed.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Santa Cruz.

**References:** Peck, S.B. et al. (2006).

---

508. *Tropisternus lateralis*  (Fabricius, 1775)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Española, Fernandina, Floreana, Genovesa, Isabela, San Cristóbal, Santa Cruz, Santiago.

509. *Typhaea stercorea* Linnaeus, 1758
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Isabela, Santa Cruz, Santiago.

510. *Urophorus humeralis* (Fabricius, 1798)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz.

511. *Xyleborinus gracilis* (Eichhoff, 1868)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Syn.:** Xyleborus gracilis Eichhoff, 1868, fide Peck (2006)
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Floreana, Santa Cruz.

512. *Xyleborinus saxeseni* (Ratzeburg, 1837)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Accidental.
   **Galapagos Distribution:** Isabela, San Cristóbal, Santa Cruz, Santiago.

513. *Xyleborus affinis* Eichhoff, 1867
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Questionable Native.
   **Galapagos Distribution:** Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

514. *Xyleborus ferrugineus* (Fabricius, 1801)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Origin:** Introduced, Questionable Native.
   **Galapagos Distribution:** Floreana, Isabela, Marchena, Pinta, San Cristóbal, Santa Cruz, Santiago.

515. *Xyleborus spinulosus* (Blandford, 1898)
   **Taxon status:** Accepted name; taxon occurs in Galapagos.
   **Syn.:** Xyleborus artespinulosus Schedl, 1935, fide Peck (2006)
**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Floreana, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

516. *Xyleborus volvulus* (Fabricius, 1775)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

Syn.: Xyleborus torquatus Eichoff, 1868, fide Peck (2006)

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz, Santiago.

517. *Xyletinus leleupi*  Español, 1976

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Endemic.

**Galapagos Distribution:** Floreana, Genovesa, Isabela, Pinta, San Cristóbal, Santa Cruz, Santiago.

**References:** Español F. et al. (1976), Peck, S.B. et al. (2006).

518. *Xylosandrus morigerus* (Blandford, 1894)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Santa Cruz.

519. *Zabrotes subfasciatus* (Boheman, 1833)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Introduced, Accidental.

**Galapagos Distribution:** Isabela, Santa Cruz.

520. *Zophobas atratus* (Fabricius, 1775)

**Taxon status:** Accepted name; taxon occurs in Galapagos.

**Origin:** Native, Indigenous.

**Galapagos Distribution:** Isabela, San Cristóbal.

**Taxon status:** The identification of this taxon or its occurrence in Galapagos is doubtful.

**Origin:** Introduced, Questionable Native.

**Galapagos Distribution:** Floreana, Isabela, San Cristóbal, Santa Cruz.

**References:** Peck, S.B. et al. (1993), Peck, S.B. et al. (2006).
Rejected taxa

1. *Aerenea quadriplagiata* Boheman

2. *Aulonium belti* Sharp, 1894
   Misidentification of A. bidentatum Fabricius, 1801, fide Peck (2006)

3. *Calocladon testaceum* Gorham, 1881

4. *Chauliognathus sulphureus* C. Waterhouse, 1878

5. *Comptocarpus longicollis* Motschulsky, 1860

6. *Copris lugubris* Boheman, 1858

7. *Ctesia pedinoides* Maklin, 1875

8. *Diabrotica ventricosa* Jacoby, 1887

9. *Doryphora guerini* Stål, 1857

10. *Geraeus batesoni* Blair, 1933

11. *Gynandrobrotica ventricosa* Jacoby, 1887

12. *Hypothenemus cylindricus* (Hopkins, 1915)

    S. Peck: restricted to Cocos Island, not in Galapagos, a synonym of Taeniotes heyi.

14. *Nephus sp.*

15. *Physonota alutacea* Boheman, 1854

16. *Stephanoderes bituberculatus* Eggers, 1940
    S. Peck: erroneous name reported for Hypothenemus brunneus by Schedl 1974

17. *Taeniotes hayi* Mutchler, 1938
    S. Peck: According to Linsley and Chemsak (1966, p. 234) T. hayi is common on Cocos Island, but has never
again been found (by anyone) on Santa Cruz; this suggests that the type specimen was most likely erroneously labeled as "Indefatigable" (= from Santa Cruz) and is the source of the 'doubtful occurrence' in Galapagos. These details were glossed over in the Linsley (1977) supplement to the insects of Galapagos.

18. *Trogoxylon parallelopipedum* (Melsheimer, 1844)
   In Peck (2006) as *Trogoxylon* sp.

**Acknowledgements**

We are grateful for the financial report received for this project. Please refer to the website (www.darwinfoundation.org/datazone/checklist/) for a detailed list of all our donors.

This checklist would not be possible without adjunct and collaborating scientists, and volunteers of the Charles Darwin Foundation. The following scientists and volunteers have contributed to the CDF Checklist of Galapagos Beetles: Sandra Abedrabbo, Fabián Bersosa, Ruth Boada, Charlotte Causton, Daniel Cherix, Germania Estévez, Lilian Guzmán, Henri W. Herrera, María T. Lasso, Maria Piedad Lincango, E. G. Linsley, Yale Lubin, Alejandro Mieles, Renato Oquendo, Lázaro Roque-Álbelo, Leslie Usinger.

Disclaimer

The Charles Darwin Foundation Galapagos Species Checklist is a continuously updated list of all species currently known from the Galapagos Islands and reflects up-to-date knowledge compiled by scientists of the Charles Darwin Foundation (CDF) in collaboration with experts from around the world. CDF shares this data publicly and invites comments, corrections and additions.

Please do not hesitate to contact us; your input is very welcome. However, please understand that additions, changes, and corrections will be posted at periodic intervals after thorough cross-referencing of all new data. As an independent international scientific organization, the Charles Darwin Foundation relies on funding from donors who support our work. Please contact us at datazone@fcdarwin.org.ec if you would like to support the Charles Darwin Foundation Galapagos Species Checklist and help make knowledge of Galapagos biodiversity more widely available.
